

Caffeinate or Hydrate?

The Choice is Yours with the Multitasking AquaBarista™

use your favorite coffee K-cups

your family will love the ease of use

great for hot tea

various cup fill sizes

refreshing water chilled to perfection

Coffeemaker + Water Dispenser = Beverage Perfection

Brew your favorite coffee K-Cup® pods, steep tea and crush that daily water intake goal — all with the ingenious AquaBarista™. This innovative, streamlined system puts multiple refreshment choices at your fingertips while its compact design respects your space.

Light roast or bold.

Premium java enjoyment is just seconds away.

Simply pop in a K-Cup® pod, select your cup size and press Brew. Fresh coffee, made with the system's pure bottled water, is coming right up.

Cold water and hot.

Whether you steep, stir or slurp, the perfect temp awaits.

Make tea, indulge in a hot chocolate or grab a quick cup of soup with hot water, instantly delivered at the press of a lever. Want refreshing cold water instead? It's waiting too, and the extra-large dispensing area accommodates carafes and sports bottles for on-the-go hydration.

Less lifting. More sipping.

Bottled water for all of your beverages in a convenient bottom-load design.

The AquaBarista™ houses a handy five-gallon bottle that supplies a seemingly endless source of fresh water for quick coffee brewing and hot and cold dispensing. When replacement time arrives, the bottle's lower compartment location makes the job easy — no heavy lifting required.

Minimized space, maximized tastes.

Cluttered countertops are so last year.

Get extra room for food prep and enjoy a more orderly ambience in your kitchen. The AquaBarista™ clears up the chaos and consolidates coffeemakers, tea kettles and bottled water into one space-saving design.
